The Starchild Project

THE STARCHILD SKULL is a 900 year old bone skull found in Mexico in the 1930s. It is human like, but the bone has features so unusual that some experts, including Dr. T.J Robinson, do not think it is human.

New study adds to evidence that bans of menthol cigarettes help.

Sep 27, 2022A new study concludes that the 2020 European ban on menthol cigarettes made it more likely that menthol smokers would quit smoking, supporting previous Canadian research on the positive public health impact of banning menthol cigarettes. Christina Kyriakos, from Imperial College London, led the study in collaboration with researchers from Maastricht.

Honors College | Kent State University
Welcome! Our primary mission is to provide an enriched educational experience for academically motivated and talented students at Kent State University. Both in and out of the classroom, our learning environment provides students with opportunities to interact and share ideas with other bright, motivated students and mentoring professors.

About - ABCD Study
Using cutting-edge technology, scientists will determine how childhood experiences (such as sports, videogames, social media, unhealthy sleep patterns, and smoking) interact with each other and with a child's changing biology to affect brain development and social, behavioral, academic, health, and other outcomes.

America After 3PM 2022 - Afterschool Alliance
The Afterschool Alliance's 4th edition of America After 3PM provides a detailed account of children in the afterschool hours, identifying: trends of participation in, and unmet demand for, afterschool programs; the

experiences and opportunities programs afford; and which children and families are missing out, and why.

Purposeful and timely nursing rounds: a best practice ... - PubMed
Background: Purposeful and timely rounding is a best practice intervention to routinely meet patient care needs, ensure patient safety, decrease the occurrence of patient preventable events, and proactively address problems before they occur. The Institute for Healthcare Improvement (IHI) endorsed hourly rounding as the best way to reduce call lights and fall injuries, and.

Utah Ground Snow Load Map | USU
Apr 03, 2018 While great efforts have been made to ensure these predictions are as accurate as possible, designers must use expert judgement to ensure that such predictions are appropriate for their particular project. The SEAU and the authors cannot accept responsibility for prediction errors or any consequences resulting therefrom.

Welcome to the Mnemosyne Project | The Mnemosyne Project

If you want, anonymous statistics on your learning process can be uploaded to a central server for analysis. This data will be valuable to study the behaviour of our memory over a very long time period. The results will be used to improve the scheduling algorithms behind the.
